Painters need to be skilled with a wide variety of hand and power tools, depending on the type of surface preparation and coating required. The work is both challenging and varied.

Working Conditions:

Work is conducted indoors and outdoors at floor level, on ladders, rigging and scaffolding. Painters and decorators use a variety of chemicals and can be exposed to fumes from paints and solvents. Workers may have to travel great distances to work sites. Jobs vary in time from a few days to as long as a year or more. Hours may include working at night.

The Apprenticeship:

The apprenticeship consists of 6,000 hours of on-the-job training and an additional 432 hours of related classroom instruction. Related training is usually conducted in the evening and sometimes on Saturday, on the apprentice's own time. Satisfactory progress must be maintained in related training classes.

Typically, it takes approximately 3 years to complete the program.

The recruitment, selection, employment, and training of apprentices during their apprenticeship shall be without discrimination because of race, color, religion, national origin, or sex. The sponsor will take affirmative action to provide equal opportunity in apprenticeship and will operate the apprenticeship program as required under title 29 of the Code of Federal Regulations, part 30. Veterans who are eligible for GI Bill benefits may use them in this program.

Painter/Decorator Application and Interview Process

1. **Apply** to the program and meet minimum qualifications. *Documents for proof of qualification must be provided at the time of application.*
2. **Attend Orientation** when notified (always the third Monday of the month following the month the completed application was received). Applicants who do not attend the orientation will not be placed in the ranked pool of eligibles.

Applicants who attended the Orientation class will be scheduled to return for a personal interview.

3. **Interview**

Qualifying applicants will be scored and ranked using an interview system; all applicants will be asked the same questions.

Interviewers are appointed by members of the Joint Apprenticeship and Training Committee (JATC).

Following the interview, the committee will assign a numerical score for that applicant.

4. Applicants will be subject to drug testing after the interview but before being placed on the Ranked Pool.

5. **Ranked Pool**

Applicants will be placed in descending order in the RANKED POOL based on the score earned during the personal interview process. This means that applicants with higher scores will place higher on the waiting list for jobs.

It is possible for a new applicant to place higher than an earlier applicant by earning a higher interview score. If two or more applicants have identical scores, those who applied earlier will place higher on the list.

DIRECT ENTRY

This program offers direct entry (automatic placement at the top of the waiting list by date of application) to:

- **Veterans** with Honorable Discharge and DD214 within the past 24 months.
- **Approved pre-apprentice programs** who apply within two years of graduation. Currently these programs include approved Job Corps centers and Oregon Tradeswomen. Applicants must bring their completion certificates along with a copy of a high school diploma or GED certificate.
